

Supplementary Table S8. Sets of genes detected by comparing Ago1 IP and Ago1 depletion experiments. We include the number of genes detected by Hong et al and the number of used 3'UTR sequences

		AGO1 IP experiment	
		# genes / # 3'UTR	enriched
AGO1 depl. experiment	up-regulated	SET I 152 / 142	SET III 300 / 287
	not up-regulated	SET II 1039 / 949	SET IV 5509 / 4907
