Fig. S1

The figure shows a heatmap with gene expression levels. The rows represent different samples, and the columns represent genes. The color scale indicates the expression levels, with blue representing low expression and red representing high expression.

Gene names include STAT1, TLR7, CD40, CD86, IFNAR1, IRF5, IRF7, MYD88, TBK1, TNF, and TRAF6.

Sample labels are indicated as 'Asx' and 'Sx'.
