Female

- Female gene expression divergence
- Box plots showing expression breadth
- Broad vs narrow chromatin state
- Active vs repressive expression

Male

- Male gene expression divergence
- Similar to female plots

Mel-anal

- Mel-anal gene expression divergence
- Similar to female and male plots

Mel-yak

- Mel-yak gene expression divergence
- Similar to female and male plots

Chromatin state and expression breadth

- Broad and narrow chromatin states
- Active and repressive expression
