Figure S17B

- ATPases involved in chromosome partitioning
- membrane protein
- zinc metalloproteinase Mpr protein
- transcriptional regulator
- RepA protein
- transcriptional regulator
- transcription antiterminator
- ATP/GTP-binding protein remnant
- putative dopa decarboxylase protein remnant
- mobC
- mobB
- pCRY
- 21742 bp
- pE61BA_2
  - 100% identity
  - 90% identity
  - 70% identity
- pMET-1
  - 100% identity
  - 90% identity
  - 70% identity
