Discovery Cohort
2,101 cases; 4,202 controls
European Ancestry
(7,968,453 variants tested)

Novel Locus
\[ p < 5.0 \times 10^{-7} \]

selection of 1-2 variants per novel locus for replication

Replication #1
365 cases; 2,491 controls
African American
(1 variant tested)

Replication #2
371 cases; 1,122 controls
United Kingdom
(3 variants tested)

Replication #3
427 cases; 783 controls
Italy
(3 variants tested)
