

Table S4: Bravais-Pearson statistical analysis of correlation between basal readthrough, induced readthrough and gentamicin response (Increase Factor) after Box-Cox transformation

R

Variables	Basal	Gentamicin	Increase Factor
Basal	1	0.845	-0.296
Gentamicin		1	0.248
Increase Factor			1

p-values:

Variables	Basal	Gentamicin	Increase Factor
Basal		< 0.0001	0.016
Gentamicin			0.045
Increase Factor
