

## Correction: A Candidate Gene Approach Identifies the *TRAF1/C5* Region as a Risk Factor for Rheumatoid Arthritis

Fina A. S. Kurreeman, Leonid Padyukov, Rute B. Marques, Steven J. Schrodi, Maria Seddighzadeh, Gerrie Stoeken-Rijsbergen, Annette H. M. van der Helm-van Mil, Cornelia F. Allaart, Willem Verduyn, Jeanine Houwing-Duistermaat, Lars Alfredsson, Ann B. Begovich, Lars Klareskog, Tom W. J. Huizinga, Rene E. M. Toes

Correction for:

Kurreeman FAS, Padyukov L, Marques RB, Schrodi SJ, Seddighzadeh M, et al. (2007) A Candidate Gene Approach Identifies the *TRAF1/C5* Region as a Risk Factor for Rheumatoid Arthritis. *PLoS Med* 4(9): e278. doi:10.1371/journal.pmed.0040278

In Table 1, the allele ratio in column eight (Allele Ratios<sup>b</sup>: Cases, Controls) refers to allele A: allele B and not allele1:allele2 as described in footnote b, with Allele A being the Susceptibility Allele as denoted in column seven.

The footnote should read:

<sup>b</sup>Number of alleles were compared in cases versus controls: allele A: allele B cases, allele A: allele B controls. Allele A refers to the susceptibility alleles as given in column seven.
