

S7 Table. Leave One Day Out (LODO) analysis of voting intentions ahead of the United Kingdom European Union membership referendum. The first block shows all polls coded according to the days on which data was collected. Subsequent blocks show polls that *include* versus *exclude* each weekday in turn. Rows refer to separate polls. Columns contain response numbers, start and end dates, start and end days, presence (1) or absence (0) of each weekday, and poll results.
