Figure S1. The probe intensities along the FCA gene and the gene At5g46490 and their surrounding intergenic regions.

* probe out of at5g46490
= probe in exon of at5g46490
- probe in intron of at5g46490
Figure S1. (Continued).

* probe out of FCA
= probe in exon of FCA
- probe in intron of FCA
