Figure S1

The figure shows the effect of TGF-β on TIFγ and Smad4 mRNA levels under different conditions.

- **TIFγ mRNA (AU)**
  - **-TGF-β**
  - **+TGF-β**

- **Smad4 mRNA (AU)**
  - **-TGF-β**
  - **+TGF-β**

The figure compares the expression levels of TIFγ and Smad4 under normal conditions (scr) and after silencing (si).
