Figure S2

A. Diagram showing the exons of WNK1 mRNA. Exon 8, 8b, HSN2, and exon 9 are indicated.

B. Bar graph showing the relative expression (% of all WNK1 isoforms) across different tissues:
- Kidney
- Brain
- Cereb.
- Sp. cord-DRG
- Sk. muscle
- Heart
- Aorta
- Colon
- Lung
- Liver

C. Bar graph showing WNK1 exons mRNA expression (RP1626, arbitrary units):
- Exon 8b
- Exon HSN2
- Exon 11

Legend:
- Black: complete
- Gray: Δ 8b-HSN2
- White: Δ 8b
