Figure S3

Plot showing the effect of Suramin, 8-Br-ADPR, TRPM2 shRNA, and Suramin on 
intracellular calcium ([Ca$^{2+}$]$_i$) levels over time.

Bar graph showing the concentration of calcium ([Ca$^{2+}$]$_i$) in different conditions:
- Suramin
- 8-Br-ADPR + Suramin
- TRPM2 shRNA + Suramin

The charts demonstrate the calcium levels in micromoles (mM).
