Figure S2

Box plots showing expression levels of PIK3CA, MLLT3, MYCN, and MDM2 in different conditions:

- **PIK3CA**
  - Normal: n = 10
  - Tumor diploid: n = 173
  - Tumor altered: n = 4

- **MLLT3**
  - Normal: n = 10
  - Tumor diploid: n = 84
  - Tumor altered: n = 27

- **MYCN**
  - Normal: n = 10
  - Tumor diploid: n = 102
  - Tumor altered: n = 2

- **MDM2**
  - Normal: n = 10
  - Tumor diploid: n = 156
  - Tumor altered: n = 20

The y-axis represents the log2 absolute expression levels.
