Rosa Morros Pedró, President of the Clinical Ethics Committee of the IDIAP Jordi Gol and Gurina.

To Certify:

That this Committee in its convocation on September 28th, 2011 evaluated the research project (P11/85) titled: *Incidence of risk of osteoporotic fracture and its relation with bisphosphonates exposure. Observational study of population clinical data: OSTEOFRAC* presented by Gisela Galindo.

In consideration of the ethical principles and methodology of the investigation, definitive approval has been granted for the abovementioned project.

Signed in Barcelona June 2014.
