**Figure S3**

The figure shows a bar chart illustrating the percentage of hemispheres in different conditions. The chart compares the following groups:

- **W** (wild type)
- **UAS-RNAi-hrp48**
- **UAS-RNAi-hrp48**
- **UAS-RNAi-hrp48**
- **UAS-RNAi-hrp48**

The chart is divided into three categories:

- **Symmetric**
- **Asymmetric**
- **Truncated**

The data points are as follows:

- **W**:
  - Symmetric: 237
  - Asymmetric: 181
  - Truncated: 166

- **UAS-RNAi-hrp48**
  - Symmetric: 238
  - Asymmetric: 153
  - Truncated: 172

The chart includes a statistical significance test indicated by an asterisk (*) for the comparison between certain groups.
