## Probes

**Question 1.** You have XX MNP sachets remaining. Explain how easy or difficult it was to use the MNP product on a daily basis for your child 6 – 23 months? (Circle one answer)

**Very Difficult**

**Difficult**

**Easy**

**Very Easy**

**Question 2.** Describe any specific challenges that you faced that made the MNP difficult to use on a daily basis?

**Question 3.** Describe specific aspects of the MNP product that you or your child enjoyed that made it easier to use on a daily basis?

It is very easy because once it is opened, it just to mix with the available food around such as fura, wake, faten wake e.t.c. and it is tasteless and colorless, so the child is not aware there is anything in the food, therefore the child is willing to take any food given her because she eats a lot now and she is very active and strong also

**Question 4.** What questions do you have about the MNP based on your experience using it?

**No questions foe now in the usage of the product**

**Question 5.** What specific recommendations do you have that we can do as a program to make the MNP easier to use on a daily basis?

You should give us something that can store the MNP to avoid losing the product also, it should be a continuous process as there are new born babies everyday
