$$\underline{\quad 32 \quad} / \underline{\quad 39 \quad} = \underline{\quad 82.1 \quad} \%$$

## **Probes**

**Question 1.** You have **XX** MNP sachets remaining. Explain how easy or difficult it was to use the MNP product on a daily basis for your child 6 – 23 months? (Circle one answer)

**Very Difficult**

**Difficult**

**Easy**

**Very Easy**

**Question 2.** Describe any specific challenges that you faced that made the MNP difficult to use on a daily basis?

The child does not like to drink the MNP. I have to force him. I think he does not like the taste and flavor.

**Question 3.** Describe specific aspects of the MNP product that you or your child enjoyed that made it easier to use on a daily basis?

To be honest with you the boy has seriously improved in his eating habit. He eat almost everything he sees around and the first few days I started given him the powder I noticed he added serious weight but later the weight dropped but he is doing fine and no problem at all.

**Question 4.** What questions do you have about the MNP based on your experience using it?

- I want to know the exact importance of this powder (MNP) to kids.

**Question 5.** What specific recommendations do you have that we can do as a program to make the MNP easier to use on a daily basis?

There should be regular supervision by supervisors who can monitor and ensure compliance. There should be some form of rewards to caregivers who use it very well and complete the dose as required.
