Probes

Question 1. You have **XX** MNP sachets remaining. Explain how easy or difficult it was to use the MNP product on a daily basis for your child 6 – 23 months? (Circle one answer)

Very Difficult

Difficult

Easy

Very Easy

Question 2. Describe any specific challenges that you faced that made the MNP difficult to use on a daily basis?

After using this product for some days the child refused to take kunu mixed with the product. I was confused and I started mixing the product into solid foods like tuwo (guinea corn meal) and okro soup. After you came today and told me to try it once again I mix the product into kunu and add little sugar, the child eat all the kunu. I now understand how to device means to feed him daily with the product

Question 3. Describe specific aspects of the MNP product that you or your child enjoyed that made it easier to use on a daily basis?

The aspect that makes my job easier is the fact that I am to pick a sachet daily and use for the child. Everyday when I pick one sachet to use and mix it into either kunu or tuwo it makes it easy for me.

Question 4. What questions do you have about the MNP based on your experience using it?

- I do not have questions but I now understand that I suppose to think of different ways of preparing kunu so that my child can accept the product.

Question 5. What specific recommendations do you have that we can do as a program to make the MNP easier to use on a daily basis?

The product is very good even though I skip some days to administer it to my child, I have seen the general improvement in my child diet and all I can say is thank you to federal ministry of health for introducing this product to us.
