43

5. Number of sachets remaining / number of sachets should be remaining (Analyst only):

$$\underline{\quad 41 \quad} / \underline{\quad 43 \quad} = \underline{\quad 95.3 \quad} \%$$

## **Probes**

**Question 1.** You have **XX** MNP sachets remaining. Explain how easy or difficult it was to use the MNP product on a daily basis for your child 6 – 23 months? (Circle one answer)

**Very Difficult**

**Difficult**

**(Easy)**

**Very Easy**

**Question 2.** Describe any specific challenges that you faced that made the MNP difficult to use on a daily basis?

The sachet is hard to unseal. Sometimes I have to use knife or my teeth to tear off the sachet.

**Question 3.** Describe specific aspects of the MNP product that you or your child enjoyed that made it easier to use on a daily basis?

- His appetite has increased.
- He used to be ill most of time but since I started giving him this MNP he is healthier.
- He had some rashes on his body before I started giving him MNP but it dried up in less than a week of giving him MNP
- He breastfeeds less than before taking the MNP because now he eats more

**Question 4.** What questions do you have about the MNP based on your experience using it?

- What will happen if I miss a day of administering the MNP?
- When are we getting more MNP?

**Question 5.** What specific recommendations do you have that we can do as a program to make the MNP easier to use on a daily basis?

We need more of the MNP because we have seen the benefit and when it is brought again there should be adequate enlightenment.
