$$\underline{\quad 39 \quad} / \underline{\quad 41 \quad} = \underline{\quad 95.1 \quad} \%$$

Probes

Question 1. You have **XX** MNP sachets remaining. Explain how easy or difficult it was to use the MNP product on a daily basis for your child 6 – 23 months? (Circle one answer)

Very Difficult

Difficult

Easy

Very Easy

Question 2. Describe any specific challenges that you faced that made the MNP difficult to use on a daily basis?

There are no challenges in general but it is just that the MNP sachet is too thick and difficult to used daily.

Question 3. Describe specific aspects of the MNP product that you or your child enjoyed that made it easier to use on a daily basis?

The aspect of the product is that i enjoy the most is the fact that it looks like powder milk and does not show any bubbles in the kunu and looks as if nothing was added into it.

Question 4. What questions do you have about the MNP based on your experience using it?

When we start administering the product and noticed that the child has fever or running temperature, what do we do about that.

Question 5. What specific recommendations do you have that we can do as a program to make the MNP easier to use on a daily basis?

The product is too thick, I mean the leather of the product or the sachet should be made a little lighter for easy day to day use because most of us use razor blade to unseal it. That is the only recommendation. Every other thing is just okay and we are so grateful.
