A

![Bar graph showing expression relative to control for U1C1/C2 and U2A1/A2 with control and snRNA RNAi conditions. The graph indicates a significant increase in expression for U2A1/A2 in the snRNA RNAi condition.]

B

![Diagram of the U2A2 snRNA 3' end with adapter sequence. The adapter sequence is shown with the nucleotide locations ranging from 90 to 110. The U2A2 snRNA 3' end is also depicted with nucleotide positions from 110 to 190.]
