

Figure S4. Phylogenetic relationships of the FIV_{Ple} *pol*-RT sequences. Neighbour-joining tree of the 301 bp FIV_{Ple} *pol*-RT sequences. The distinct FIV_{Ple} subtypes were labelled A to F. Bootstrap (BPS) values are placed at each branchpoint (ME/MP/ML) and in parenthesis are the BPS values obtained for a tree established with 520 bp of FIV_{Ple} *pol*-RT sequence for a representative subset of individuals.
