

Supplemental Table 11. Prevalence and Incidence of ESRD due to IgAN in the US. Primary data obtained from the USRDS Annual Report, 2011.

Ethnicity	Yearly Incidence (PMP) #	Population (1000s)*	USRDS Prevalence Data (December 31, 2009)					
			Prevalent Cases (Counts)			IgAN Prevalence		
			ESRD	Primary GN	IgAN	% ESRD	% Primary GN	PMP ##
US African-American	1.5	39,641	180,567	21,192	598	0.33	2.82	14.4
US White-American	2.8	244,298	347,420	52,164	6,660	1.92	12.77	26.4
US Native-Americans	5.5	3,151	7,428	978	181	2.44	18.53	50.7
US Asian-American	10.8	14,014	30,285	6,357	1,522	5.03	23.94	93.2

* Based on the 2009 US Census Data

Incident ESRD cases due to IgAN per million population (PMP) based on a 5-year period (2005-2009).

Prevalent ESRD cases due to IgAN per million population (PMP) for 2009.
