**Figure S8. Ju/'hoan and Yoruba ancestral contributions to the !Xun and amaXhosa**. STRUCTURE analysis using the 2687 Ju/'hoan-Yoruba AIMs assuming two (estimated log likelihood of probability of data -160813.9) and three (-161042.6) population clusters (10000 burn-ins and 20000 iterations). K=3 is also presented in the main text (**Figure 4A**).
