

Table S2. Colocalization data of Rnq1-GFP with Sup35-RFP after 6 h of induction of Sup35-RFP in [*PIN*⁺] cells.

Total number of cells with Sup35-RFP dots (n=6000)	242 out of 6000 (4%)^a
Total number of cells with colocalizing Rnq1-GFP dots in cells with Sup35-RFP dots	144 out of 242 (60%)
Total number of cells with diffuse Rnq1-GFP in cells with Sup35-RFP dots	98 out of 242 (40%)

^aRepresentative images are provided in Figure 4A.
