

EDITORIAL

PLOS Medicine 2016 Reviewer and Editorial Board Thank You

PLOS and the *PLOS Medicine* team would like to express our sincere gratitude to everyone who lent us their expertise as an academic editor, as a guest editor or as a peer reviewer in 2016. We are fully dependent on the voluntary efforts of these experts to publish the journal for the academic community and the wider readership concerned with human health. Over the past year, *PLOS Medicine* relied on 116 academic and guest editors to manage the 1,070 articles submitted to the journal, which were assessed by more than 800 reviewers. Their efforts enabled the publication of more than 250 rigorous, Open Access papers.

The names of our 2016 editors that handled submitted manuscripts appear in the Supporting Information as [S1 Editor List](#) and as [S1 Guest Editor List](#). Our reviewers appear in the Supporting Information as [S1 Reviewer List](#). We are grateful for their dedication, generosity, and support of Open Access science. Thank you all.
