Hello, my name is ________. I am part of a team from Hawler Medical University conducting a survey of households in ________ camp to understand events that you and those in your household experienced during displacement. We will also ask some questions about your health and the health of those in your household. The interview will take about 20 minutes.

The information you provide will help improve the health services as well as improve the protection of persons who must flee their homes for safety in times of war.

We will not write down your full name, and everything that you tell us will be kept completely confidential. No one can find out what you tell us. We would like to ask you these questions in private so no one can overhear your answers.

Taking part in this survey is completely voluntary. You don’t have to answer questions, and even if you start you can change your mind and stop at any time. If you decide not to participate, you can still receive the same health and other services you have received in the past. You will not receive any rewards for participating.

May I start asking you questions now?

________ interviewer initials indicating consent to participate.
Main Form

Date of interview

Camp number

Household number

Interviewer name

Did the respondent provide consent for this interview?

Would you please list all the adults and children who live in this household including yourself? (A household is a group of people living together in the selected shelter)

Household List Sub-Form

Household member number

First name or initial of household member

Age at last birthday (if under 1 year, enter "0.months")

Sex
