S13 Text.   Effective Reproductive Number for the simulation generated by the ABM (Zoonotic Spillover with human-to-human transmission).

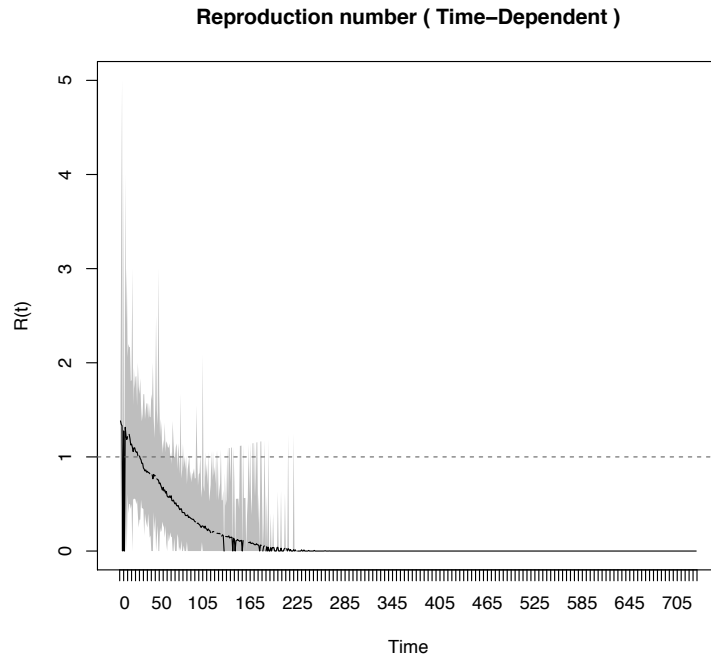

Fig S1. Effective Reproductive Number for the simulation generated by the ABM for the zoonotic spillover with human-to-human transmission model ('Poisson with Fedback' model). The Effective Reproductive Number was estimated according to the approach used by [1], with zoonotic spillover events interpreted as imported cases; the distribution of the generation intervals were obtained by the ABM.
