Correction

Correction: Effectiveness of Treatment Approaches for Children and Adolescents with Reading Disabilities: A Meta-Analysis of Randomized Controlled Trials

The *PLOS ONE* Staff

In the Methods section, there are errors in Formula 1- Hedges g. The term $(n_{EG} -1)s^2_{CG}$ appears under the root; the correct term is $(n_{CG} -1)s^2_{CG}$. In addition, the parentheses for the correction factor are missing. Please view the complete, correct formula here:

$$g = \frac{M_{EG} - M_{CG}}{\sqrt{\dfrac{(n_{EG}-1)s^2_{EG} + (n_{CG}-1)s^2_{CG}}{n_{EG} + n_{CG} - 2}}} \left(1 - \frac{3}{4df - 1}\right)$$
