

CORRECTION

Correction: [Pt(*O,O'*-acac)(γ -acac)(DMS)] Alters SH-SY5Y Cell Migration and Invasion by the Inhibition of Na⁺/H⁺ Exchanger Isoform 1 Occurring through a PKC- ϵ /ERK/mTOR Pathway

The PLOS ONE Staff

In the fourth sentence of the second paragraph under the subheading “[Pt(acac)₂(DMS)] decreases expression and activity of MMP-2 and -9” in the Results section, the units for SB203580 should be listed in μ M instead of mM.

The correct sentence is: When SH-SY5Y cells were pretreated for 30 min with SB203580 (1 and 10 μ M), and then with 0.50 μ M [Pt(acac)₂(DMS)] for 24 h, the inhibition of MMP-2 and MMP-9 expression levels was blocked (Fig. 4D), but the effects of [Pt(acac)₂(DMS)] on Matrigel invasion were unchanged (Fig. 4E).
