Correction: HIV-Associated Disruption of Tight and Adherens Junctions of Oral Epithelial Cells Facilitates HSV-1 Infection and Spread

The *PLOS ONE* Staff

There are 2 errors in the first paragraph of the Results subsection titled “HIV tat and gp 120 and Cell-free HIV Virions Induce Activation of MAPK Signaling in Polarized Oral Epithelial Cells.” In the first sentence, $\alpha\omega$ should be αv . In the third sentence, ω should be αv .

In the Discussion section, there are 2 errors in the fourth sentence of the third paragraph. In the fourth sentence, “ $\omega\eta\chi\eta$ ” should be “which” and “ $\lambda\epsilon\alpha\delta\eta\eta$ ” should be “leading.”
