Correction

Correction: Are Plant Species Able to Keep Pace with the Rapidly Changing Climate?

The *PLOS ONE* Staff

There are errors in the raw data presented in Table S9. The authors have provided a corrected version and the analysis presented in the published article is based on this corrected data.

Supporting Information

Table S9. Proportions still attached in cattle coat (prop_attach, measured values) after a certain time [min] for up to five repetitions (rep.) for the 64 species in table S10. We standardized the measured values by subtracting the minimum value and dividing by the range of the measured values.
