Correction

Correction: A Novel Serine Protease Secreted by Medicinal Maggots Enhances Plasminogen Activator-Induced Fibrinolysis

The *PLOS ONE* Staff

Figure legend 1 is incorrect. The correct figure legend is:

Figure 1. Effect of maggot secretions on the tPA-induced lysis of plasma clots (representative example).

No secretions —; 12.5 µg of secretions/mL — — —; 25 µg of secretions/mL — — — —; 50 µg of secretions/mL — — — —.
