Yes	25.74	4.98-133.1	26.34	5.17-134.2	31.94	5.73-178.2	25.83	5.19-128.5
Received at least one dose of HPV vaccine								
No	1.00		1.00		1.00		1.00	
Yes	1.99	0.38-10.39	1.99	0.40-9.89	1.11	0.22-5.64	1.80	0.37-8.75
Decisional Neutrality Elements								
This decision is best for me personally								
Firm	1.00							
Neutral	0.22	0.05-0.91						
This decision is consistent with my personal values								
Firm			1.00					
Neutral			0.14	0.03-0.68				
I am satisfied that the decision was mine to make								
Firm			1.00					
Neutral			0.09	0.01-0.55				
I am satisfied with my decision								
Firm					1.00			
Neutral					0.19	0.04-0.84		
Decisional Satisfaction Summary Score†								
4								1.00

Table 5. Cont.

Model 1 aOR	Model 2		Model 3		Model 4		Summary Model	
	95% CI	aOR	95% CI	aOR	95% CI	aOR	95% CI	aOR
3						0.26	0.04-1.37	
2						0.08	0.01-0.64	
1						0.19	0.03-1.30	
0						0.20	0.03-1.20	

Bold numbers indicates statistical significance.

The summary score was created from the sum of four dichotomous satisfaction categories ("personally", "my personal values", "mine to make" and "satisfied") where the category was a 0 if neutral or a 1 if firm (strongly agree/agree/disagree/strongly disagree). Decisional satisfaction summary scores ranged from 0-4. A score of 0 means that all four elements of decisional satisfaction were neutral, a score of 1 means that one element of decisional satisfaction was neutral, a score of 2 means that two elements of decisional satisfaction were neutral, a score of 3 means that three elements of decisional satisfaction were neutral, and a score of 4 means that no elements of decisional satisfaction were neutral.
