Correction

Correction: *Chlamydia trachomatis*, Human Immunodeficiency Virus (HIV) Distribution and Sexual Behaviors across Gender and Age Group in an African Setting

The PLOS ONE Staff

There are a number of errors in the legends for Table 2 and Table 3. The legends for Table 2 and Table 3 are incorrectly switched. The legend that appears with Table 2 should appear with Table 3, and the legend that appears with Table 3 should appear with Table 2. Additionally, the legend for Table 2 should not include the words “gender and”. Please view the correct Table 2 and Table 3 with legends here:

Table 3. Chlamydia trachomatis (CT) and human immunodeficiency virus (VIH) infection prevalence for the period 2007–2011.

Patients tested for both infection between 2007 and 2011				
	HIV (+)	HIV (-)	Total	HIV-prevalence rate
Chlamydia (+)	83	911	994	8.3%
Chlamydia (-)	97	763	860	11.3%
Total	180	1674	1854	9.7%
CT- prevalence	46.1%	54.4%	53.6%
