Protocol: 2007-0565
TGF-beta Antibody in Pre-clinical Cancer Immunotherapy

Approved Animal Numbers/Species: 265 Mice
Funding Agency: Genzyme Corporation

The Northwestern University Animal Care and Use Committee (NUACUC) approved the use of animals on the ASP referenced above for the three year period 8/8/2007 through 8/7/2010.

Northwestern University has an Animal Welfare Assurance on file with the Office of Laboratory Animal Welfare (A3283-01). Northwestern University conducts its reviews in accordance with United States Public Health Service (USPHS) regulations and applicable federal and local laws. The composition of the NUACUC meets the requirements of the USPHS policy and the Animal Welfare Act Regulations.

For the Committee,

C. J. Heckman, Ph.D.
Chairman, NUACUC
