A. Blood glucose (mM) over time.

B. AUC (mM in 120 min) for blood glucose.

C. Blood glucose as a percentage of initial value.

D. Reverse AUC for blood glucose.

E. Blood glucose (mM) over time, with different conditions.

F. AUC (mM in 120 min) for blood glucose with different conditions.

G. Blood glucose as a percentage of initial value with different conditions.

H. Reverse AUC for blood glucose with different conditions.

I. Plasma insulin (ng/ml) over time.

J. Plasma insulin (ng/ml) over time with different conditions.
