Figure S3

- \( \log(p\text{Value}) \)

1. Immune response_IFN alpha/beta signaling pathway
2. Cytoskeleton remodeling_Neurofilaments
3. Cell cycle_Role of Nek in cell cycle regulation
4. Cytoskeleton remodeling_Keratin filaments
5. Proteolysis_Role of Parkin in the Ubiquitin-Proteasomal Pathway
6. Cell adhesion_Gap junctions
7. Immune response_Antiviral actions of Interferons
8. Immune response_IFN gamma signaling pathway
9. Immune response_Innate immune response to RNA viral infection
10. Apoptosis and survival_Granzyme A signaling
