</tbody>
</table>

**Legend:**
- VPh: Visual Photic Stimulation
- APh: Auditory Phonemic Stimulation
- S: Silent state
- k: Extracted area
- T: t-stat
- x, y, z: Peak MNI coordinates
- L/R: Left/Right
- Area: Brain region

**Note:**
- MNI coordinates are used to determine the peak location of the extracted area in the brain.
- The t-stat values indicate the statistical significance of the difference between conditions.
