Core collection from the center of Oblong Tarn

Core collected: 1983
Water depth: 9.5 m
Drive 1  Drive 2

Core collected: February 1986
Water depth: 10.2 m
Drive A  B  C

Water column
(max. depth 10.7 m)

Water-sediment interface

Diffusely layered minerogenic and organic sediments

Till or hard sediments

Bedrock
