Interviewee: I would tell them. I could even call them to come and help me. I could tell them because I would want to live.

Interviewer: If you were positive would you visit the clinic?

Interviewee: Yes I would.

Interviewer: What were your experiences at the clinic?

Interviewee: There is no problem. People get helped so I think they are treated well.

Interviewer: Do you think there is anything that could be improved at the clinic?

Interviewee: The number of nurses. Sometimes when you go the clinic you find two nurses working, some you find that are on lunch. The nurses that are on shift they have to attend every patient that has visited the clinic and the patients end up going home late.
