S5 Fig: Trends and projections of the coverage of delivery care services in Ghana, 1993-2030

Note: (A) Coverage of institutional delivery (B) Coverage of skilled birth attendance

The figures on the left panel represent national coverage, and the figures on the right panel show coverage across wealth quintiles. The dots indicate observed estimates from raw data. The lines show the posterior mean estimates (dashed line for projected values for future); the shaded area shows the 95% credible intervals.
