S3 Questionnaire of God encounter experiences occasioned by classic psychedelics

*From:* Griffiths, R.R., Hurwitz, E.S., Davis, A.K., Johnson, M.W., & Jesse, R. Survey of subjective "God encounter experiences": Comparisons among naturally occurring experiences and those occasioned by the classic psychedelics psilocybin, LSD, ayahuasca, or DMT. PLOS One

The questionnaire was presented to participants on a widely used online survey administration website (www.qualtrics.com). The following document, which was downloaded from the Qualtrics website, provides all possible questions and text that could have been presented to a participant. The questionnaire involved presentation logic that skipped some questions and text depending on a given participant’s responses. Additionally, in the following document there are instances in which presentation code (e.g. ${q://QID149/ChoiceGroup/SelectedChoices} appears which was replaced by the text of a response that the participant made to a previous question.
Demo Info

Welcome

This is a questionnaire study of personal encounters with the Divine that occur after taking a classic hallucinogen such as psilocybin or LSD. This research study is being conducted by scientists at Johns Hopkins University School of Medicine and has been approved by the Johns Hopkins University Institutional Review Board (IRB). The IRB application number for this research study is NA_00054696 Dr. Roland Griffiths, Ph.D. is the Principal Investigator for this research study. Detailed information about the study is provided in the next few pages. If you need further information please contact EncounteringTheDivine@jhu.edu

Our Previous Research
Our research team has previously conducted studies investigating spirituality, religion, mystical experiences, and altered states of consciousness occasioned by psychedelic drugs.

Purpose of This Study
In this survey, we want to characterize various experiences of encounters with something that someone might call: "God" (e.g., the God of your understanding), "Higher Power," "Ultimate Reality," or an Aspect or Emissary of God (e.g., an angel).

Eligibility Criteria
You are invited to participate in this survey if you fulfill all of the criteria listed below.
1) You are at least 18 years old.
2) You read, write, and speak English fluently.
3) You have taken a dose of a classic hallucinogen (e.g., psilocybin mushrooms, psilocybin, LSD, ayahuasca, mescaline, DMT, etc.) that produced moderate to strong psychoactive effects.
4) After taking the substance you have had an experience of encountering something that someone might call: "God" (e.g., the God of your understanding), "Higher Power," "Ultimate Reality," or an Aspect or Emissary of God (e.g., an angel).

What the Study Entails
Participation in this study involves filling out an online survey that will take approximately 45-60 minutes. You will be required to complete the survey in one sitting.

Why should I participate?
We believe that this study is scientifically important and may be personally worthwhile to you. We would like you to participate because we need to collect responses from many different people in order to better characterize experiences of such encounters. You may find this survey interesting and an uplifting opportunity to revisit and contemplate a precious experience. You may also find it meaningful to further explore some of your philosophical and theological beliefs. However, you may find it to be uncomfortable because it will prompt you to explain some of these deeply held beliefs. There is also a chance that you will be bored. Although there is no monetary compensation for participation, you will be making a unique and important scientific contribution, and you may gain further insights into your experiences.

Is my participation confidential?
Yes. We do not collect identifying information such as your name, email address, or IP address. Your anonymous responses will be seen and analyzed by Johns Hopkins staff or representatives. To further protect the confidentiality
of participants, the results of most questions will be presented in aggregate. If you complete the optional open-ended section of the survey, we may quote from your textual responses. However, if you provide specific identifying information, we will edit your responses to protect your confidentiality.

**What kind of information will I be providing?**
At the beginning of the survey, you will be asked questions about your background, spiritual, and religious beliefs. Most of the survey asks about your experience(s) during an encounter with something that someone might call: "God" (e.g., the God of your understanding), "Higher Power," "Ultimate Reality," or an Aspect or Emissary of God (e.g., an angel). At the end of the survey, there will be an optional open-ended section that could add 10-15 minutes to the total duration. You will not be required to complete the open-ended section.

**What will become of the results from this study?**
The researchers intend to publish the results from this study in the scientific literature and to present results at scientific meetings. We will also make the results publicly available by posting a notice of any scholarly publications on the website of the Council on Spiritual Practices (www.csp.org).

**Your responses will not be used in this study if you do not complete the survey.** Your participation in this study is voluntary. Your completion of this survey or questionnaire will serve as your consent to be in this research study. Even after you begin the survey, you may stop answering the questions at any time. If you stop early, none of your responses will be used.

**How do I start?**
You can begin the survey by clicking 'Next' at the bottom of this page. This survey will take approximately 45-60 minutes and you will be required to complete the survey in one sitting. It is important that you complete the survey only once, and that you answer each question honestly and seriously. If you are not ready to complete the survey now, please return to this page at a time that is convenient for you. You can exit the survey at any time by clicking the link in the upper right corner of your screen. If you exit the survey early, your responses will not be used.

During the survey, please do not press the "back" button on your internet browser as it may erase your answers or prematurely terminate your session.

By clicking 'Next' below, you affirm that

- you have read the information above
- you fulfill the eligibility criteria
- you voluntarily agree to participate
- you are at least 18 years old

God

Previously, you indicated that you have had an experience of encountering something that someone might call: "God" (e.g., the God of your understanding), "Higher Power," "Ultimate Reality," or an Aspect or Emissary of God (e.g., an angel) after taking a classic hallucinogen (e.g., psilocybin mushrooms, psilocybin, LSD, ayahuasca, mescaline, DMT, etc.).

Take a few moments now to recollect and bring to mind that particular experience. If you have had multiple such experiences, please answer the following with respect to the single most memorable experience. Please answer the following questions according to your feelings and thoughts about that experience. We understand that response choices may not exactly match your experience, so please select the best of the provided responses. At the end of this survey, you will have an optional opportunity to further describe your experiences or to write clarifying notes about any of your answers.

Which of the following best describes what you encountered?

Note: Your answer will be used as the descriptor for subsequent questions throughout this survey. Again, we realize that this may not be the BEST descriptor for what you encountered. However, we need a descriptor to be used as a referent in subsequent questions throughout the survey.

God (e.g., the God of your understanding) ☐
Higher Power ☐
Ultimate Reality ☐
An Aspect or Emissary of God (e.g., an angel) ☐

Please describe briefly what you encountered (1000 characters or less):

What classic hallucinogen do you believe you had taken when the encounter occurred?

Psilocybin mushrooms ☐
5-MeO-DMT ☐

Psilocybin
LSD (Acid)
Ayahuasca
DMT (other than Ayahuasca)
Mescaline
Peyote cactus
Other

If other, please describe briefly which classic hallucinogen (200 characters or less):

What dose did you take before your encounter?

Note: Please be as descriptive as possible to the best of your knowledge (e.g., 8 g dried Psilocybe cubensis mushrooms, 100 micrograms LSD, 4 tabs of LSD, etc.)

How would you characterize this dose?

1 Low
2 Moderate
3 Moderately High
4 High

Approximately how old were you when you had this experience?

Did you go into this experience with the intention of trying to encounter the previously identified $q://QID149/ChoiceGroup/SelectedChoices$?
Have you ever encountered the previously identified ${q://QID149/ChoiceGroup/SelectedChoices} before?

Yes ☐ No ☐ I do not know ☐

Some people have experiences of an awareness or awakening to ${q://QID149/ChoiceGroup/SelectedChoices} in which they experience absolutely no differentiation between themselves and ${q://QID149/ChoiceGroup/SelectedChoices}. Thinking about the most salient portion of the encounter, rate the degree to which you felt that you and ${q://QID149/ChoiceGroup/SelectedChoices} were the completely different vs completely the same.

Completely different ☐ Very different ☐ Moderately different ☐ Slightly different ☐ Completely the same (Not at all different) ☐

With what senses did you interact with the previously identified ${q://QID149/ChoiceGroup/SelectedChoices}?

[Check all that apply]

- Visual ☐
- Aural (Auditory) ☐
- Bodily Sensation/Tactile (Sense of touch) ☐
- Gustatory (Taste) ☐
- Olfactory (Smell) ☐
- Extrasensory ☐

How was the encounter with the previously identified ${q://QID149/ChoiceGroup/SelectedChoices} initiated?

☐ The previously identified ${q://QID149/ChoiceGroup/SelectedChoices} initiated the encounter
☐ I initiated the encounter
