S2 Fig. Death rate of the most long-term registered heads of households

Death rates: number of deaths of heads of household/total number of household entries in the register.

Time since registration ≥ 25 years: red line, triangle marks.
Time since registration of 15-24 years: blue line, square marks.

Annual total for the number of heads of household (which regularly decreases over time) indicated for each group.

Figure based on personal unpublished data as described in S13 Text. No previous copyright.
