Correction: Artificial Sweeteners in a Large Canadian River Reflect Human Consumption in the Watershed

The PLOS ONE Staff

The maximum value for the concentration of cyclamate appears incorrectly throughout the paper as 0.88 $\mu\text{g}/\text{L}$. The correct maximum value for the concentration of cyclamate is 2.4 $\mu\text{g}/\text{L}$. This error appears in the Abstract, the first and second paragraph of the Results and Discussion and the last row of Table 1.
