

S3 Table. Top-performing time model (zero-truncated negative binomial, log link-function) of TRIATODEX performance in comparison with a printed key [2]: parameter estimates, standard errors, and 95% confidence interval limits

Effects	Term	Estimate	SE	CI lower	CI upper
Fixed	Intercept	1.95	0.104	1.747	2.154
	TRIATODEX	-0.398	0.058	-0.512	-0.284
Random (SD)	User ID	0.2	-	0.108	0.369
	Species ID	0.32	-	0.231	0.444

SE, standard error; CI lower and CI upper, lower and upper limits of the 95% confidence interval; SD, standard deviation
