

Supplemental Figure 1. Significance level (p-value) of three-SNP haplotypes within the *TNFSF13B* region, identifying the *TNFSF13B* rs8181791-rs16972216-rs17499386 haplotype (denoted in figure as *TNFSF13B*-07-05-06) as associated with NHL (restricted to non-Hispanic Caucasians). Note: SNP-based analyses demonstrated *TNFSF13B* rs2582869 (denoted as *TNFSF13B*-15) as statistically significant.
