

Ophioglossum RNA Read Mapping

Psilotum RNA Read Mapping

This figure displays a genomic mapping visualization with the following key features:

- Top Row:** Reference coordinates 9721, 9731, 9741, 9751, 9761, 9771, 9781, 9791, 9801, and 9811.
- Sequence:** The sequence is ATACAAGGAGTTCAAGTAAATTGATCTGTATAGAACGGTTGAAGAGATCCTAAACCAT*GTTCATTTGTAAAGAGGATTGTTTGAT.
- Annotations:** A vertical yellow bar highlights a segment from position 9721 to 9781. Specific positions are labeled with letters: R at 9721, C at 9731, GCG at 9741, ct at 9751, T at 9761, G at 9771, and t at 9811.
- Motif Distribution:** Asterisks (*) indicate the presence of a motif across the sequence. The motif is most concentrated in the highlighted yellow region, particularly around the GCG and ct sites.
