

To  
The Chairman  
Animal Ethics Committee  
Visva-Bharati

30.12.2013

Subject: Permission to carry out animal experiment for our research

Respected Madam,

I would like to perform one animal experiment to check any kind of toxicity by *Lactobacillus fermentum* C14 in mammalian system (Swiss albino mice). Bacterial suspension will be administered to Swiss albino mice for a month through drinking water in respective feeding bottles and toxicity will be measured by assaying liver enzymes. The detail of the experiment is attached herewith.

Please do the needful for your kind approval.

Yours sincerely

*N.C. Mandal* 30.12.13

Narayan C. Mandal, Ph.D.

*The proposal of  
research is approved  
since non pathogenic  
bacteria only will be  
used.*
