

S3 Table. Selected features for F_4 . There were 28 folds in the leave-one-subject-out cross-validation. This table shows the number of folds in which each feature was selected (if selected in at least one fold). Note that stage 0 refers to the warm-up stage.

Feature	Location	Direction	Stage	Number of folds
G	–	–	–	28/28
BW	–	–	–	28/28
HR^{-1}	–	–	0	28/28
VAR^{-1}	left or right tibia	total	0	27/28
SD^{-1}	left or right tibia	total	0	1/28
